

Building a Network of Networks

Name Nelson-Parker

Affiliation PREL

Which of the following best describes the nature of activities carried out by you or the agency, institution, or organization you are affiliated with?

Research Services Management Other DEVELOPMENT (please specify)

*Boundary organization
if more at interface level*

With respect to PaCIS, would you describe the agency, institution, or organization you are affiliated with as: (select any that apply):

NOAA Regional NOAA National Non-NOAA US Federal Agency

Int'l Regional Int'l National State, Territory, or Local NGO

Academic Institution Private Sector Other _____ (please specify)

Education interests with everything so we routinely partner with all of the kind of agencies, entities named above

What agencies, institutions, or organizations would you identify as your *primary* partners or collaborators? (please feel free to write on the back if you need more room) *in line of business*

*LEAs, SEA, other ^{private} non-profit research, development | service agencies, 10 region
laboratories across the US, individual contractors, university faculty, inter disciplinary networks*

*through our networks we can have regional, national | international impact
[we are needs-driven (what does the region need), research-driven (follows the research -> best practices),
we customize for the individual entity, all dollars must be hi impact]
NSF works with us to deliver outreach, on the other hand NSF is a funder*

What agencies, institutions, or organizations would you identify as your *secondary* partners or collaborators? (please feel free to write on the back if you need more room) *interact on reg basis*

we partner with

*universities, NGOs, government agencies - at this level we enlist from all types of agencies to serve as advisors or "supporting partners" vs major partners
museums*

Whom would you identify as partners or collaborators that make up a *third tier or beyond*? *interreg basis*

*depending on the work we invite partnerships of all types from a range of organizations
i.e. the same entity might reasonably serve in all 3 capacities*

*foundational work -> set of applications
problem-driven*
